ROLE OF PSYCHOLOGY IN FIGHTING COVID-19 PANDEMIC: INTERNATIONAL PERSPECTIVE

International
online-conference

Coronavirus pandemic is a great challenge for all the countries. Psychologists around the Globe play an active role in solving issues related to the pandemic. Lomonosov Moscow State University (MSU), Russian Psychological Society (RPS), and Russian Academy of Education (RAE) are creating an online-platform for knowledge and experience exchange to fight COVID-19, where the most topical issues will be discussed, and experts from various countries will share their data and practical tips in coping with the pandemic. The conference will be attended by more than 500 specialists from 30 countries.

Date and Time:

16 -17 September 2020, Faculty of Psychology, Lomonosov Moscow State University is organizing an online-conference where experts from European, Asian, North and South American, African psychological associations will be discussing psychological point of view on COVID-19 pandemic and psychological contribution to cope with it. The conference is supported by International Union of Psychological Sciences (IUPsyS) and European Federation of Psychologists' Associations (EFPA).
